To whom it may concern;

The John McGivney Children's Centre at 3945 Matchette Rd. in Windsor completed a major renovation and addition in 2010 in which Dow Signs provided the main entrance pylon sign as well as two directional ground signs.

The pylon structure consisting of a double faced illuminated logo sign and a double faced LED display, as well as the two double faced illuminated ground signs, have been running for the past two years with no problems.

Jeff Dow has proven to be very professional in his dealings with us, and has honoured and even went beyond his warranty commitments. His unconditional 2 year warranty on the signs and the LED exceeded all other suppliers who offered 1 year on parts only.

I would highly recommend Dow Signs to anyone interested in a sign product whether digital LED or conventional painted, routed graphics, or illuminated.

Feel free to call or e-mail regarding any questions.

Yours truly,

Lloyd Ayotte
