To: Dow Signs

This is just a quick note to thank Jeff Dow and his team at Dow Signs for the great job they did in designing and installing our new electronic sign that is seen from the E.C. Row Expressway next to our property. This sign allows us to announce to the community driving by the various events we have going on here at Parkwood Gospel Church and do it in full colour.

Jeff has also arranged for the painting of our light standards in our parking lot and our cross on the church and the tower holding our elevated cross.

Jeff has taken a personal interest in our projects and has been on site to supervise and inspect the progress of his workers and has kept us well informed of how the projects were going. He is very personable and insists on quality work and it shows in the product he produces. I would recommend Jeff Dow and Dow Signs to anyone looking for signage for their property.
